THE RELIANT SERIES

SETTING THE STANDARD

The Reliant Series from Higgins Custom Door Designs is the future for custom carriage house doors with a truly maintenance-free overlay paired with a world-class steel door and backed by an industry leading warranty.

QUALITY

From The Ground Up

STYLE:

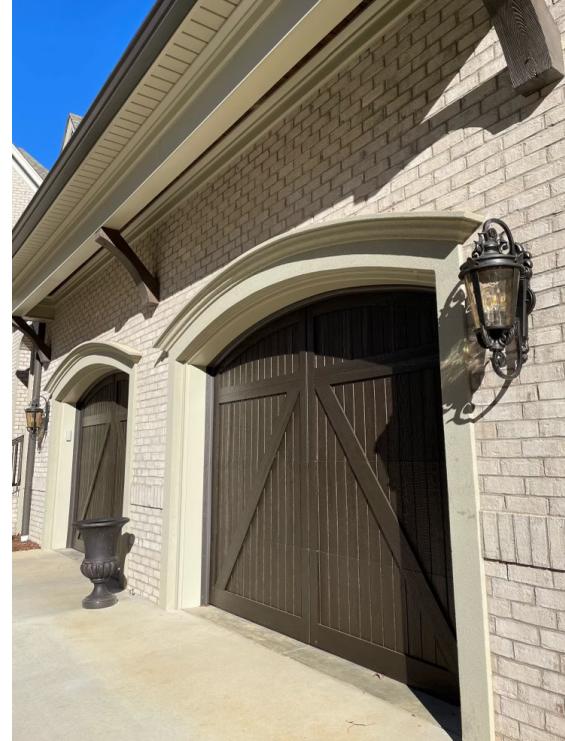

The Reliant Series features a full composite overlay built from LP Smart Siding® in 4 standard panel options and 5 standard trim style options which is finished in your choice of custom color or our 17 TimberTones dual-tone colors! Don't see the door of your dreams? Just ask us about custom designs today!

CONSTRUCTION:

LP Smart Siding® is an engineered wood material and our choice to build the perfect overlay with. Engineered wood is more flexible and less prone to breakage compared to other composite materials which means a higher durability with extreme weather and temperature changes.

The LP Smart Siding® is finished with the highest quality paint for pre-finishing available and secured by thoroughly tested fastening methods. The industrial wood coating used is up to 1.71 times thicker (dry film thickness) and 2 times more resistant to color change than the leading competitor.

Built upon an 1-3/4" thick, polyurethane insulated (16.4 R-Value), sandwich-steel, commercial door with extremely heavy-duty hardware, you can be sure that your Reliant Series door will provide beauty and dependability for years to come.

4" GROOVED PANEL | ASHER | ARCHED TOP
CUSTOM COLOR

Carriage house doors with the strength of steel, and the beauty of wood without the maintenance of traditional wood doors or other overlay products on the market today!

OUR HERITAGE

The Reliant Series is built upon the partnership of two companies:

NATIONAL PREFINISH:

Specializing in pre-finished SmartSiding®, NPF is the superior choice when it comes to providing and applying, not only the overlay material, but also the highest-quality finished paint that gives the Reliant Series the leading warranty for overlay products. Through rigorous internal and third-party testing, NPF has verified the best application materials and methods of the overlay to the base steel door ensuring that the Reliant Series lives up to its name!

NPF's expert craftsmen and design studio are here to handcraft your Reliant Series door to the highest standards there are.

Want to match your siding or trim with your Reliant Series? Give us a call today and give your home a complete package!

HIGGINS CUSTOM DOOR DESIGNS:

Led by a second generation, certified Master Door Technician, HCDD provides the Reliant Series the best steel base door and hardware that you should expect to see with a custom door solution. Where other competitor overlay door manufacturers cut corners, HCDD sets the standard. Check out our chart on the next page to see how we compare to others!

CINNAMON STICK TIMBERTONES

HCDD have thoroughly field tested the door components and system for horizontal deflection, balance weight, smoothness, and door engineering to provide the full package.

HCDD also provides the logistics to safeguard your Reliant Series in transit to your local door dealer. With HCDD trucks and drivers, your door is handled with the utmost care from start to finish. Why risk your custom-made Reliant series with LTL and other shipping options?

OUR PARTNERSHIP:

The partnership of NPF and HCDD gives you the peace of mind that all the components of your door are in the best possible hands at all times. Two leaders of their respective industries coming together means your Reliant Series is truly the pinnacle for custom carriage house doors.

Elevate your Reliant Series with several hardware set options! From black to bronze, smooth texture or hammered finish, we have the right set to give your door the finishing touch!

The Reliant Series is made by professional craftsmen and garage door experts. Your door is installed by our network of experienced installers letting you rest assured that your investment stands the test of time!

PAIR YOUR RELIANT SERIES with a SOMMER operator!

SOMMER is one of Europe's leading garage door operator manufacturers and are proud to offer their product in the North American market.

The SOMMER 2080 evo+ operator is the operator of choice for any Reliant Series door due to its ability to lift up to 1,100 pounds. Thoroughly tested by HCDD on the Reliant Series, no other operator comes close to the smoothness and softness of the SOMMER 2080.

Accessories such as keypads, internet connectivity, battery backup, additional LED lighting, and cameras, are all available to add to this already impressive unit.

In addition, the SOMMER 2080 evo+ comes with a 6-year general, 2-year accessory, and lifetime motor warranty.
